# Do you need care for a school-age child?

**ECDC** will begin accepting applications on July 17<sup>th</sup>, 2023 for a school-age enrichment program for children **ages 6 through 12 years old that attend local public or private schools**. To apply for services, complete the *ECDC Child Care Application*. If you are currently receiving child care assistance through the child care program, please complete an *ECDC Update/Change Form*.

Services will be offered after school, and at times that school is not in regular session (i.e. summer break, spring break, teacher prep days). The school-age enrichment program will follow ECDC's program calendar of scheduled closures. Funding for this program is through CCDF. Due to the limited number of slots available, placement in this program will follow the prioritization criteria as outlined in the *FFY2023-2025 CCDF Plan*.

For any additional questions please contact
