**CLASSIFICATION:** Non-Management, Regular (Seasonal), Full-Time

**LOCATION:** The Klamath Tribes  
Natural Resources Department  
501 Chiloquin Blvd.  
Chiloquin, OR 97624

**BACKGROUND:** N/A

### POSITION OBJECTIVES

The position is located on a wildland fire crew. The primary purpose of this position is to perform wildland firefighting, prescribed fire, cultural burning and other wildland fire-related work. These crews perform work directly related to wildland fire suppression and control activities including suppression, preparedness, prevention, monitoring, and hazardous fuels reduction. May also perform duties in other fuels related or ecosystem restoration projects.

Practices and leads fire suppression under the most adverse conditions of climate, fuels, and terrain. As an experienced specialized firefighter is expected to have the technical knowledge to perform in specific fire assignments, (i.e., chain saw operator, faller, water handling specialist, holding and igniting for prescribed burns, etc.) safely and efficiently. Decisions as to what must be done depend, to a considerable degree, on the employee's analysis of the situation and issues involved, and the selected course of action.

The work involves conditions and elements that must be identified and analyzed to discern interrelationships.

Incumbent is subject to medical screening and must meet the Federal Wildland Firefighter Medical Qualification Standards for arduous duty wildland firefighting.

### **MAJOR DUTIES AND RESPONSIBILITIES**

1. Serves as wildland firefighter on the Klamath Tribes Wildland Fire Crew. Independently performs duties in the suppression of wildland fires and prescribe fire.
2. Gathers and considers information on weather data, topography, fuel types, and fire behavior in responding to wildland fire incidents; utilizing best approaches and practices to use in protection of the values at risk.
3. Responsible for operation and maintenance of specialized equipment used to respond to wildland and prescribed fire situations. Accomplishes emergency repairs as necessary to permit continued use of equipment. In those instances when the apparatus cannot be used effectively in suppressing the fire, the incumbent takes aggressive control action in attacking the fire, using other means.
4. Participates in wildland fire and safety training in the techniques, practices, and methods of fire suppression and in the safe, efficient operation and use of tools, equipment, and vehicles used in fire line activities, with emphasis on those used in the particular function assigned.
5. Participates in crew proficiency checks and drills, safety sessions, and fire critiques. Ensures own and other's welfare and safety in all aspects of the assignment.
6. May inventory fuel beds, prepare associated reports, perform hazard fuel reduction projects, monitor burning conditions, pile vegetation debris and act in assigned positions such as ignition or holding specialist or other designated positions during actual fuel reduction efforts by prescribed fire.
7. May perform other duties as designated on Incident Qualification Card.
8. May perform project work such as road and trail maintenance, habitat manipulation, miscellaneous equipment, facilities maintenance, and other resources.
9. May assist in forestry/range research efforts; in the marketing of forest/range resources; or in the scientific management, protection, assist in monitoring efforts and development of forest/range resources.

10. May be required to fill-in for other work leaders on established crews.
11. Serves as an experienced firefighter on a hand crew or other related fire suppression crews performing fire suppression and/or fuels management duties under the most adverse conditions of climate, fuels, and terrain.
12. Like all employees of the Klamath Tribes, the incumbent will be called upon to accomplish other tasks that may not be directly related to this position, but are integral to the Klamath Tribes' broader functions, including but not limited to, assisting during Tribal sponsored cultural, traditional, or community events that enable the successful operation of programs and practices of The Klamath Tribes as aligned with The Klamath Tribes' Mission Statement. Some of these tasks may be scheduled outside of regular work hours, if necessary.

### **SUPERVISORY CONTROLS**

The supervisor provides instructions for new assignments. The incumbent uses initiative in carrying out standard assignments and independently works out solutions to complex problems related to specific skills. Tactical problems or unfamiliar situations that would require modifying established strategies are referred to supervisor for guidance.

The work involves the execution of specific rules, regulations, or procedures and typically comprises a complete segment of an assignment or project of broader scope. Work involves the execution of specific procedures, techniques, which differ with each fire's fuel type, weather conditions, and topography.

Work is reviewed on the basis of overall effectiveness. New assignments are checked in more detail to insure accuracy and to make sure that instructions were followed.

Most guidelines are in the form of oral instructions and training prior to actual wildland fire suppression activities. General guidelines can be found in agency and bureau published directives such as: wildland fire operations manuals, handbooks, and guides.

Some guidelines are also contained in the prescribed burning and hazard fuel reduction plan, emergency medical services plan, safety plan, and other specific local guides pertinent to the local unit or specific to the type of work being performed.

Since every possible situation cannot be anticipated and covered in training, the employee must use judgment in applying knowledge, especially in situations where the supervisor is not available for consultation.

Guides such as safety regulations must be applied.

### **KNOWLEDGE, SKILLS, ABILITIES**

Knowledge of fire behavior including causes of wildland fire, influence of temperature, humidity, wind, topography, slope and fuel moisture conditions, and fuels in order to know where to attack the fire, build fire line, where to be positioned to manage a wildland fire, and to identify hazards.

Knowledge of accepted fire safety practices and procedures to prevent injury and loss of life.

Knowledge of wildland fire management techniques, methods and conditions to accurately analyze fire circumstances, determine when additional forces may be needed, or determine when circumstances warrant disengagement.

Specialized knowledge and necessary certifications such as, chain saw operation and repair, long line certification, pump operation and water handling, use of specialized equipment used in response to wildland urban interface situations and prescribed burns.

Knowledge of tactical methods and techniques for use of water and additives in controlling and mopping-up fires in order to efficiently and effectively accomplish operations where water is in short supply.

Skill in use of hand tools such as Pulaskis, shovel, McLeod; and power tools including chainsaw, portable pumps to build fire line, control wildland fire, and to perform other non-fire related duties.

Knowledge of agency and interagency qualification, position task book requirements, and certification standards and procedures adopted by the National Wildfire Coordinating Group (NWCG).

Knowledge of reporting requirements and procedures.

Knowledge and skill of standard first aid procedures sufficient to perform preliminary first aid and triage as necessary.

Knowledge of the organization and the function of cooperative interagency fire organizations such as DOI, USDA, NWCG, NICC, GACC, state and local governments to facilitate wildland fire operations in a multi-jurisdictional setting.

Knowledge of related fields such as forestry, range, wildlife, botany, soils and water, cultural and historical resources in order to implement decisions.

Knowledge of general range/forestry technician work in order to personally perform and lead others in the performance of a variety of work in such areas as hazard tree removal, hazard fuel

reduction, prescribed burning, recreation, wildlife and watershed, and in the general facility of vehicle and equipment maintenance and upkeep.

Oral and written communication skills sufficient to effectively interact with people at all levels, internal and external to the organization, including the public.

Knowledge of fire terminology to communicate with other crewmembers.

Ability to perform basic computer technology skills such as word processing, electronic mail, internet use, and specialized fire information databases and programs.

### **PHYSICAL DEMANDS**

The work requires arduous physical exertion, such as regular and recurring running, walking, hiking, bending, shoveling, chopping, throwing, lifting; walking or climbing over rocky areas or other uneven surfaces, cutting own path through dense vegetation, and in mountainous terrain while operating hand and power tools for long durations and while carrying over 50 pounds of gear. The work frequently involves long shifts, complex decision making, and extended periods of time away from home. In many situations, the duration of the activity contributes to the arduous nature and physical and mental demands of the job. Daily physical fitness conditional workouts are required when not assigned to a fire, project work, or attending training classes.

### **WORK ENVIRONMENT**

The work is primarily performed in forest environments in steep terrain where surfaces may be extremely uneven, rocky, covered with vegetation, and in smoky conditions, etc. Temperatures vary from above 100 degrees F to below freezing. The work environment involves high risks with regular and recurring exposure to potentially dangerous situations, such as fires that are out of control or unusual environmental stress where high risk factors exist which cannot be reasonably controlled.

There may be potential for exposure to hazards which cannot be reasonably controlled such as: burns, dehydration, fire entrapment, and other effects of heat, smoke inhalation, heavy protective clothing, falling materials (trees), or explosions; exposure to toxic materials and chemical, biological, radiological, nuclear, and explosive agents; dealing with victims in varying stages of fright, panic, and injury; and/or operating or riding on fire trucks (engines) under adverse conditions.

Personnel must adjust and cope with exposure to weather elements, dust and smoke, poor bivouac and eating situations under an unpredictable set of circumstances. Incumbent may be required to live in backcountry camps for extended periods of time. The hazardous nature of the work requires that personal protective equipment be worn (boots, hardhat, gloves, flame resistant clothing, etc.). Work may require travel by light fixed-wing or rotor-wing aircraft.
